2. Using Harvest on your Farm

2.1 Farmer

So you have an account John Deere, what now? *Insert app usage with foreman in the field explanation*

2.2 Using Harverst on your Computer

So how do you actually know what is going on in the field? *Insert explanation about web interface*

2.3 Using Harvest to Manage your Staff

Harvest isn't just for your crops, yields and so, but for your people as well!! You can assign foreman to the mobile app that goes with the Harvest website. There the foreman can use the mobile app to monitor the worker performance of the workers that are assigned under them. The mobile app not only let's you monitor worker performance but also serves as a way to make sure your foreman do not leave the farm when they should not. The app features GPS tracking that can notify you through the website when a foreman leaves his post.
